

MOTOR CARS  
IN THE GREAT  
EUROPEAN TRADITION.

[WWW.TRANSRIVWO.NL](http://WWW.TRANSRIVWO.NL)

The Strada is clean, aerodynamic, graceful. The Italians wouldn't have it any other way.

Fiat Strada gives you plenty of room for four, a rear hatch that opens to covered luggage space.

With its energetic 1498cc 4-cylinder overhead cam engine, power-assisted front

wheel discs, radial ply tires, 5-speed overdrive transmission, independent suspension all around, front wheel drive, the Strada performs with brio! And its power plant is the same one you'll find in the amazing Fiat X 1/9 — our fast-becoming-a-legend sports car.

Fiat Strada. From a great European economy tradition straight into the 1980s.
